

## Schools In Canyon Open Next Week

### West Texas State Opening Tuesday

Indications Are Good for  
the Attendance Starting  
34th Year of College

Despite war restrictions, indications point to a large enrollment at West Texas State College at Canyon this fall. Registration for the fall semester starts Sept. 21.

Dr. J. A. Hill, president of the college, said living quarters had filled rapidly, indicating an unusually heavy enrollment. He said, however, that there would be adequate living quarters for all men and women desiring to attend the school.

Dr. Hill lauded young men for enrolling in college to prepare for service in the armed forces. He said many boys who would be called immediately after, or during the school year had arranged to attend college as long as possible in order to be better prepared for assignment in the armed forces.

He said the fact that war had divided so many families has made many students stick close to home as long as possible. This has resulted in numerous transfers from other schools. "In this emergency," said Dr. Hill, "West Texas State is prepared to take care of all Panhandle students."

The College will offer a full schedule of regular and many special courses. One of the special courses will be a comprehensive one in aviation.

### Archie MacAlpin Called in U. S. Geology Service

Archie J. MacAlpin received a telegram Friday from Washington directing him to report to U. S. Geological Survey at the University of New Mexico. He left Sunday and was sworn into federal service Tuesday.

This is war work under the direction of G. F. Loughlin, U. S. Chief Geologist, of Washington, D. C. Mr. MacAlpin was required to complete a questionnaire regarding his scientific training several months ago, and the appointment came as a result of this questionnaire. President J. A. Hill was recently asked by the department if Mr. MacAlpin could be released upon request. He has been on the college faculty for two years.

Mrs. MacAlpin and children will continue to live in Canyon until he is located.

This makes the 19th West Texas State College faculty member who has been called into some branch of war work.

### Funeral of George A. Boltin Will Be In Wheeler Today

George Alexander Boltin died at 1:45 a. m. Tuesday. He was 68 years, 9 months and 23 days of age, and had lived here 9 months.

The body was taken to Wheeler where the funeral will be held at 3 o'clock this afternoon at the Methodist Church, conducted by Rev. A. C. Wood.

Interment will be at the Wheeler Cemetery in charge of the Griggs-Thompson Funeral Home. Pall bearers will be Levi Reid, Chas. Candler, Bob Rogers, Harry Wolford, Robt. Holt, Floyd Pennington. Survivors are: the wife, Mrs. Rosie Ella Boltin; three sons, L. A. Boltin of Denver, L. K. Boltin of Canyon, L. J. Boltin of Farwell; five daughters, Mrs. J. T. Tate of Oklahoma City, Mrs. C. E. Beasley of Denver, Mrs. T. E. Burgess of Orange, Mrs. Cecil Richardson of Wheeler, Mrs. S. K. Murphy of Canyon; two brothers, Lee Boltin of Ft. Worth, R. D. Boltin of Sunray; one sister, Mrs. W. F. Shields of Greenville.

### Extending Power Line to Tierra Farms East Canyon

An extension is being built by the Southwestern Public Service Company from Canyon to the Tierra Blanca Farms east of Canyon. Power will be provided for many operations at the headquarters.

Materials for such extensions are being approved by the government when the needs justify the extensions.

Rev. Joe Findley attended a meeting of the Christian Church in Amarillo Tuesday.

### Soak Trees and Shrubbery Says the County Agent

All fruit trees and grape vines should be well watered this week if the soil is dry. The fruit buds for next year will be severely damaged if the trees or vines go into the dormant stage too dry. Unless watering has been done recently it should be done now before the leaves fall.

A good soaking now with a cover of grass or leaves to hold the moisture would likely be all that is needed until early next spring. However, it should be done now—not after frost.

W. H. Upchurch, County Agent.

### Shower Over the County; Feed Is Cut, Wheat Sowed

A light rain of .63 of an inch fell in Canyon Thursday night. The rain was general over the county.

Farmers are cutting their feed crop. While the row crop is light this year, most of the farmers believe there will be a sufficient amount of feed to carry them thru the winter.

Much wheat is being planted. It is feared by many that with the continued dry weather of the year that if rain starts this fall it will continue throughout the winter and farmers will not get their wheat planted early. There is enough moisture generally to bring up the wheat but it will need rain within a short time, or the seed wheat will be lost.

### Italians Working on Several Farms of Randall County

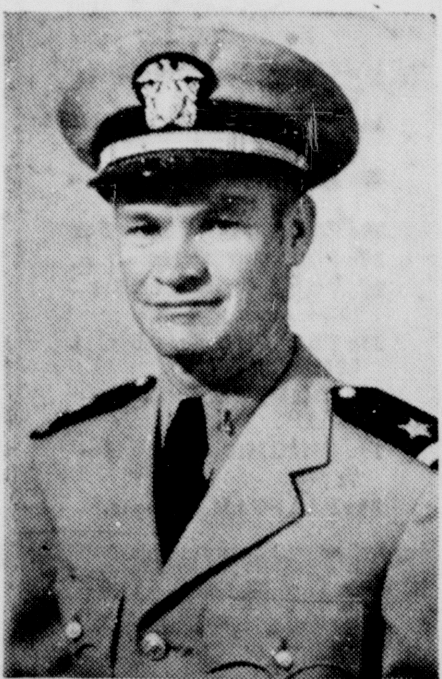

Several farmers of Randall County have secured labor from the Hereford Internment Camp. Italians are in this camp and they have been available for farm labor. Owing to a change in regulations it is doubtful if any more contracts will be approved after Friday of this week in time to assist farmers.

The Italians are being used in shocking feed. Generally the crews have done good work. The men will work very well for about 7 hours, but after that the farmers have found they had as well be returned to camp. Guards stand over the men throughout the day, but so far none of the Italians have attempted to escape.

Army officers at the camp have refused to allow the men to be interviewed as to their feelings about the surrender of Italy to the United Nations. What disposition will be made of these men has not yet been determined. There are several thousand war prisoners in the various camps of the United States. The army has not revealed the number at Hereford, but it is known that many of the prisoners in recent detachments have been sick and wounded men from the battle fronts.

### Geo. Smalls Have Two Sons in Service

ENSIGN RAY SMALL

Ensign Ray Small is assigned to duty at Cornell University, N. Y. He entered the service June 1 after being instructor at the Amarillo Air Field, where his wife continues to teach. He is a son of Mr. and Mrs. George Small of Canyon.

### 3rd War Bond Sale Underway

All Citizens Urged to  
Buy Their Bonds Now in  
Order to Start Checkup

Randall county citizens have bought only one-third of the quota for the 3rd War Bond Drive, according to announcement of R. H. Wright, county chairman.

The sales up to Tuesday night amounted to \$85,038.75. The quota is \$259,000. This made a balance of \$173,961.25 which must be sold during the remaining days of September in order to meet the county's quota.

Mr. Wright asks that all citizens who have not bought bonds do so as quickly as possible in order that a careful canvass of the county may start in order to see all who have not bought their quota of bonds for this drive.

### Canyon Renews Planning Board Post-war Projects

The City Commission has appointed members of the Planning Board to serve during the coming six years. The first Planning Board was appointed under an ordinance passed in November, 1938.

Members of the board are: C. L. Thompson, chairman, W. C. Black, to serve six years.

Dr. S. H. Condon, W. J. Wooten, to serve four years.

Clyde W. Warwick, T. A. Black, Milton Morris, to serve two years.

The City Commission has recommended that the Planning Board start to study post-war planning and to bring a program before the City Commission.

### Dalhart Man Is Charged Drunken Driving Friday

R. C. Freeman of Dalhart is charged with running into an aviation gasoline truck 12 miles south of Canyon Friday night. He was in the hospital until Sunday with a broken arm and bad cuts on the face.

He was released Sunday on appearance bond under the charge of driving while intoxicated.

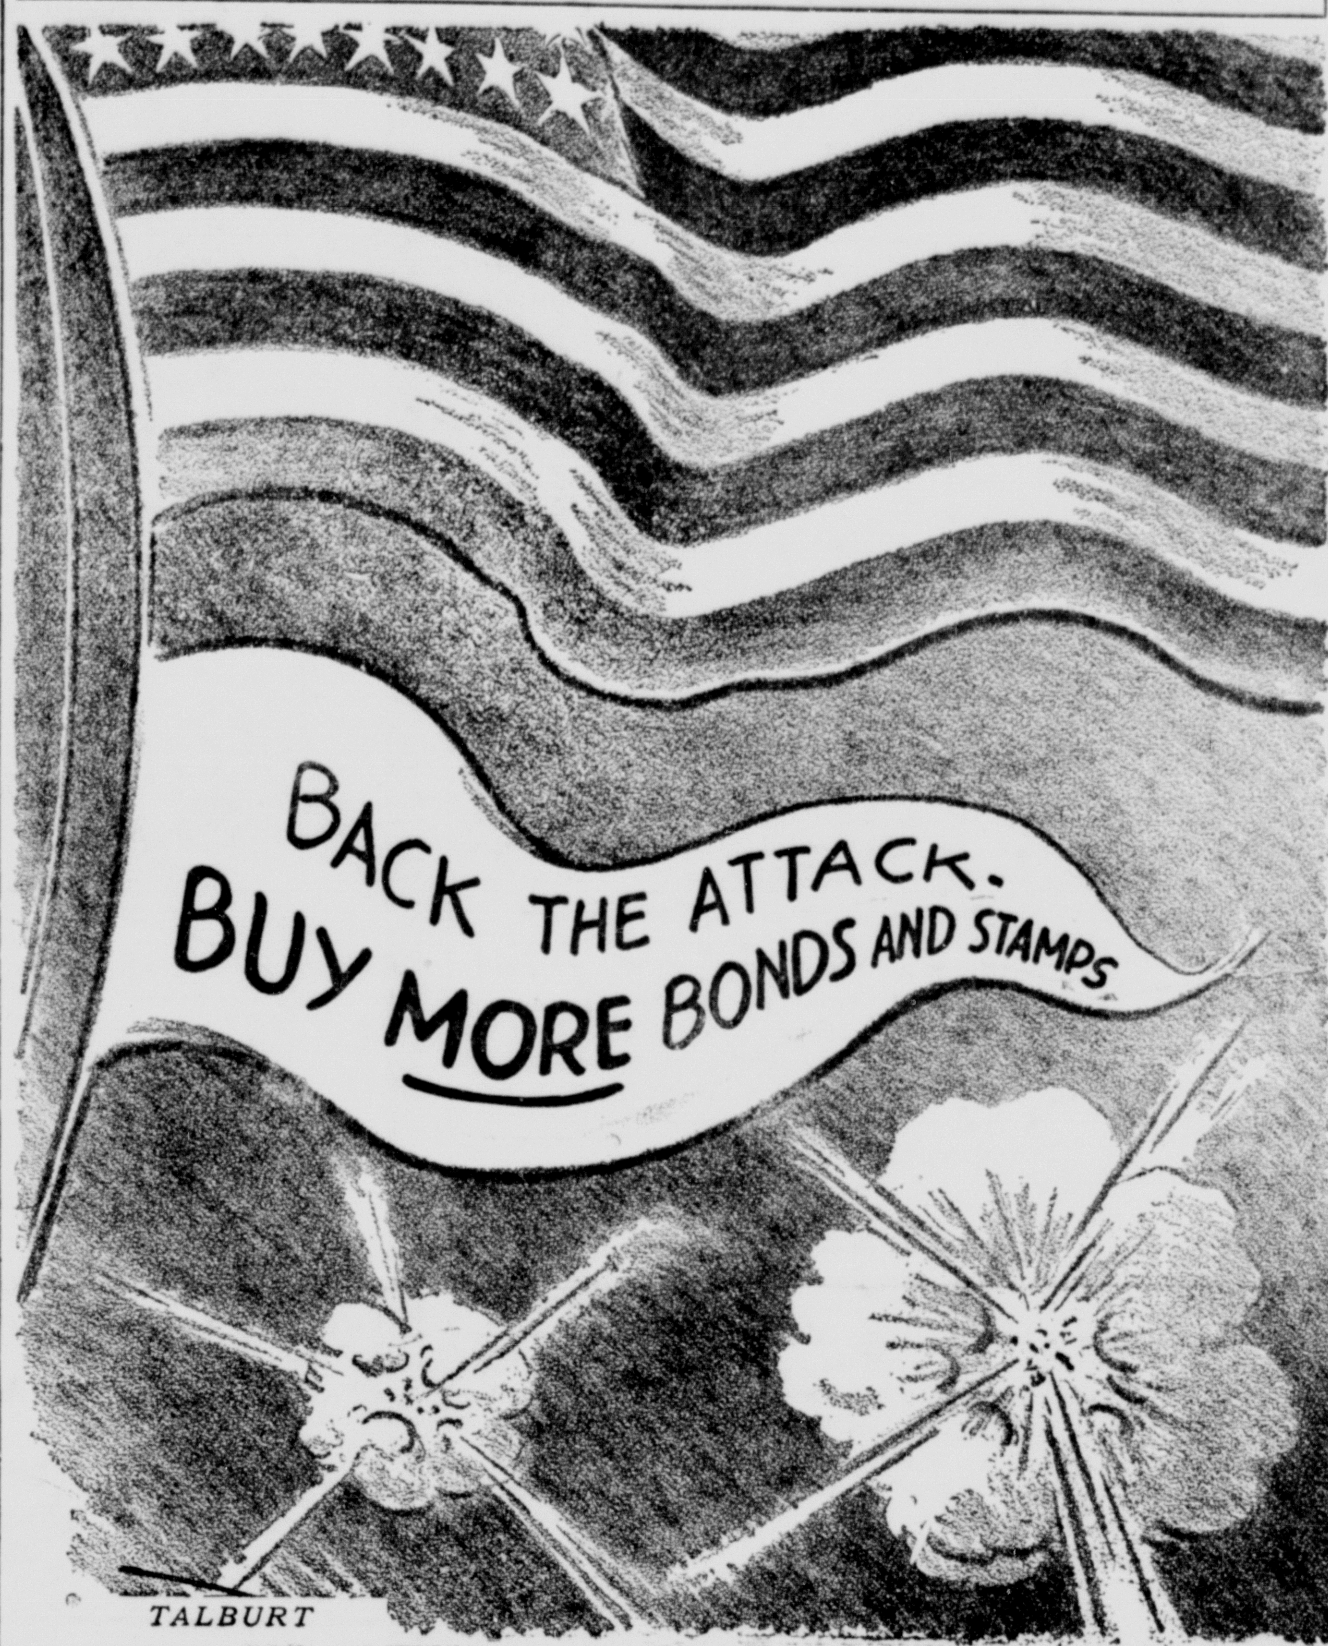

### Pioneer Citizen of Panhandle Is Here

Luther Hastings of Bovina is in Canyon for several days for medical treatment. He is a pioneer of the Panhandle, and cooked for several years for the J. A. Ranch.

He is contacting pioneers of Canyon whom he knew 40 years ago, and is enjoying recalling the events of early days.

A/C Don Foster who is in training at the University of Southern California, left Monday after spending a short furlough in the home of his parents, Mr. and Mrs. R. E. Foster.

### TO ADD NEW GLORY TO OLD GLORY!

### Grass Fires Are Threat to Ranges

Civilians Are Warned to  
Use Great Care Because of  
Drouth During the Year

The News has been requested to call attention to the fire hazards along roads adjacent to grass land in various parts of Randall county.

County Agent W. H. Upchurch states that a number of locations over the county are already dangerous fire hazards and as the grass and weeds along the county roads become dry enough to burn the danger from fire will increase with each dry windy day.

Every acre of good pasture is needed this winter and none should be burned off as a result of carelessness.

Because of the heavy growth of grass along most of the roads and fence rows there is constant danger of starting fires if people are careless with lighted cigarettes and matches.

In a number of locations over the county a fire started in this manner could easily destroy valuable feed crops in the field or even burn farm buildings.

Farmers are generally very careful and take the necessary precautions to prevent fires. Let all citizens do likewise and help prevent grass fires.

### Lee Van Zant Died Saturday in Dallas Funeral Tuesday

Lee Van Zant of McLean died Saturday in Dallas where he had been sick only a short time.

Mrs. Worth A. Jennings is a brother of the deceased. Mr. and Mrs. Jennings attended the funeral Tuesday afternoon at McLean.

The Van Zant family was among the pioneers of Randall county, but Lee moved away from here about 25 years ago.

Mr. and Mrs. Ross V. Anthony of Ontario, Calif., visited last week in the C. L. Sone home.

### Adult Education Plan Creates an Interest in City

Interest in adult education in Canyon has greatly increased, states Dr. S. H. Condon. A large number of people have contacted him during the past week in regard to taking this type of work.

Mr. Condon states that clubs and organizations are invited to consider taking class work under this plan. College instructors will meet classes at any place and at any time that may be arranged for the benefit of the largest number of persons.

This type of college instruction has become very popular in recent years. It opens a great field for civilians who are unable to take regular class work in the college.

With West Texas State opening the fall term next Tuesday, citizens of Canyon are urged to get together this week, organize classes and call upon Dr. Condon or Dean R. P. Jarrett for the type of instruction which will be agreeable to the entire group.

### John M. Davis Is Commissioned As 2nd Lieutenant

James M. Davis was commissioned 2nd Lieutenant on September 6 upon completion of the aviation meteorology cadet course at the Army Air Force Technical Training Command weather school at Grand Rapids, Mich.

He was graduated as a weather officer. The nine months concentrated course trained him to analyze weather and to prepare forecasts. He will be assigned as officer in charge of a weather station and as forecaster.

Lieut. Davis was formerly a chemist at the Phillips Petroleum Co. His parents, Mr. and Mrs. John M. Davis, are residents of Canyon.

Lieut. Davis reported at once at Marfa at the Army Air Field.

Mrs. Earl Potter, a former resident of Canyon, is in an Amarillo hospital due to an operation.

### Company F May Be In Battle

Fifth Army Engaged With  
the Germans in Italy In  
Which Local Boys Fight

It is generally believed that several Canyon boys are in the fight against the Germans in Italy.

Company F is a part of the 5th Army, which is engaged in a desperate fight against the Germans. When this company left Canyon in 1941 there were 83 Canyon boys in the unit. Since then all but about a dozen have been transferred to other branches of service.

It will likely be some time before an authentic report will be received regarding the local boys.

### Training School to Open Next Tuesday; May Enroll Monday

Enrollment in the West Texas State training school will start next Monday afternoon at 2 o'clock. Enrollment will continue through Tuesday.

There will be no opportunity for pupils to enroll Monday morning states Milton Morris.

Noon hour will be observed from 1 to 2 o'clock daily.

### Bob's Coffee Shop Redecorated and to Open Tuesday

Bob's Coffee Shop has been closed for two weeks while the building was being decorated. This work was completed yesterday, with the exception of outside painting which will soon be finished.

The business will reopen next Tuesday, states Bob Clark.

### DR. INGHAM VERY ILL

Dr. S. L. Ingham has been ill at his home for several weeks. He is one of the pioneer dentists of the Panhandle and has practiced in Canyon for 35 years.

### Public Schools Start Tuesday

Registration Will Be  
Completed Monday, and  
Classes Start Tuesday

High school enrollment of the Canyon School is in progress this week. Seniors enrolled Tuesday; Juniors Wednesday; and Freshmen and Sophomores today.

All 7th and 8th grade students will enroll Monday, Sept. 20. High school students who enrolled this week will not report until Tuesday morning at 10 o'clock. Regular class work will start Tuesday and will continue throughout the day.

Pupils who submitted vaccination certificates last year need not submit them this year. Birth certificates are required of all first grade pupils only.

School buses will run Monday morning. School will dismiss at 1 o'clock Monday and the buses will return home. School buses are expected to arrive between 9:30 and 10 o'clock each morning. W. J. Phelps and Sam Hill are the bus drivers for the Independent School District.

Supt. J. B. Speer has announced the following faculty for the year:

#### Grade School Faculty

Miss Elva Fronabarger, principal. Mrs. T. W. Collins, Mrs. Robert Orton, 1st grade. Mrs. Stella Murrell, Mrs. Roscoe Davis, 2nd grade. Mrs. Lucile Doughty, Mrs. A. K. Goodman, 3rd grade. Mrs. L. M. Cousins, Miss Florence McMurray, 4th grade.

5th and 6th grades: Mrs. Mitchell Jones, social studies; Mrs. John Davis, arithmetic; Mrs. Andy Walsh, English; Mrs. W. E. Miller, language arts; Mrs. Glenn Dowlen, public school music, piano, voice.

#### High School Faculty

Mrs. Guy Taber, registrar and English. Mrs. Dan F. Sanders, Spanish and history.

Mrs. Lee Gilmore, English and Journalism.

Mrs. Billie Simms, arithmetic. Miss Birdie Cleo Crabtree, commerce.

Mrs. A. K. Knott, mathematics. Mrs. K. L. Kirkland, science. Milton Sanders, shop and boys' physical education.

Miss Rhita Jean Sullivan, home making. W. G. Sanderson, vocational agriculture.

Mrs. J. W. Kleinschmidt, librarian. Mrs. Dorothy Strain, girls' physical education.

Mrs. Gilmore comes from the Wheeler schools; Miss Crabtree from the Matador school; Mr. Sanderson from the Happy school.

### Mrs. E. A. Upfold Broke Both Legs at Home on Wednesday

Mrs. E. A. Upfold has been in an Amarillo hospital the past week suffering from breaks in both of her legs. Her condition is such that it has been impossible to set the broken bones. An attempt will be made to bring her home from the hospital this week.

All members of the family have been called home to see their mother, including children who live away from here: Amos Upfold of Fairfield, Iowa; Mrs. Hubert Buckner of Fallon, Nebr.; Harry Upfold of Albuquerque; Cpl. Jim Upfold of Marfa.

Mrs. R. L. Mobley of Amarillo is visiting in the home of her son, Rhone Mobley, here this week.

### SUBSCRIPTIONS!

Last week The News reminded subscribers to keep their subscriptions paid in advance or run the risk of not being able to continue taking daily newspapers.

On Tuesday the Amarillo News announced that subscriptions must be limited because of the newspaper situation.

The Canyon News has handled the renewals of hundreds of subscriptions to daily newspapers every year, and urges subscribers not to allow their subscriptions to expire.

There will be no holiday bargain rates this year because of the increased cost of producing newspapers.

The Canyon News subscription is \$1.50 per year in Randall and adjoining counties. The subscription rate of the Amarillo News is \$10.00 per year. Subscriptions for the two newspapers total \$11.50 per year. Subscribers are warned that they should make their renewals NOW in order to avoid disappointment.

A government economist made a very startling statement the other day to a Panhandle audience. He stated there were 15 million people engaged in various types of war work. He predicted that within 90 days after the war stops that practically all of these people would be without means of support. If this is true, the nation faces difficult times. Since practically every manufacturing plant in the nation has been converted to produce war machines and war material, it will take months to reconvert these plants back into civilian production. Most of the big plants which were built to produce nothing but war munitions are owned by the government, and of necessity the government will be forced to find some one who wants to operate these plants for the manufacture of civilian goods before anything can be done with them. Therefore, those who are today working in war plants should take heed and buy War Bonds before their money gets away from them. They are certain to face months of unemployment while the nation is getting readjusted following the war.

There is a large amount of real estate changing hands, with business men buying up land. In many instances good farmers are being dispossessed by city men who know little about farming. The high price of cattle and all kinds of farm products makes the business man wish that he could get back to mother earth and take advantage of the freedom of the soil. Whenever good farmers are forced to sell out and leave the Panhandle such real estate deals are bad on the country. Farming is a business, the same as running a store or practicing a profession. The fellow who knows nothing about a business will eventually go broke if he attempts to run such a business. The same thing applies to farming. A successful farmer is forced to put in much longer hours and much harder work than the fellow who lives in town. We are going to have more farming by remote control in the Panhandle than ever before, and the set up doesn't look good for the future development of the country.

It would be a fine thing if a list of War Bond buyers could be published. The reader would have two distinct shocks if this could be done. He would first be shocked that so many people with small means were buying so many bonds. But his greatest shock would be when he looked over the list and found so many people with considerable wealth who had either bought a very small amount of bonds, or had bought none whatsoever. Probably this class excuses themselves by saying that their wealth is doing more for the war by being invested in productive lines. All of this may be true, but to buy War Bonds is very much of a patriotic duty. To refuse to invest in our nation is unpatriotic. The war cannot be won unless every citizen does his full duty by investing his money in the fight. The war must be financed, and the only way to finance it is by every citizen buying all of the War Bonds that he can.

Your boy, or your neighbor's boy, knows what the fruits of this devastating Allied invasion will be—the months, the dollars, the American lives it will save. And, across the miles, he is pleading—buy more and still more War Bonds—today!

This advertisement contributed to the U. S. Third War Loan Drive by The Studebaker Corporation

The collapse of Italy was the only thing left for the Italian people. The people were between the Devil and the deep blue sea. They had nothing to do with the ambitions of Mussolini to become a supreme dictator, although they endured him for a much longer time than was good for them. When he was finally overthrown, they realized that their country would be the battle ground for the United Nations and the Germans. They were confident that the United Nations would finally run the Huns back home, and would make a better friend than Hitler had shown himself to be. With the Italian fleet and Italian armies on our side, the war picture has greatly improved during the past week. Even Hitler should know that his defeat is inevitable, and that he should surrender in order to save Germany from the terrific pounding from the air to which that nation will be subjected from both the north and the south.

Secretary of State Hull highly praised the Russians for their valiant fight against Hitler in his speech Sunday night. No doubt the speech was made to offset the criticism of his department in the charge that it was becoming anti-Russian. Mr. Hull could have said all that he indicated in his speech and still not be very strong for Russia as an ally after the war. As a matter of honesty, there are few Americans who are entirely sold on Russia as an ally in times of peace, as much as we appreciate the fine way in which Stalin has organized and whipped Hitler on Russian soil. The impressive part of Hull's speech was his insistence that a world peace force be organized so that another world war shall be prohibited in the future.

A group of wounded men stopped a strike last week when they appealed to the strikers to go back to work and support the men who were fighting for them. The appeal was most effective. Certainly no more effective appeal could be made to war workers who are already drawing big pay than to be faced by men who have been shot to pieces on the battle front. However, the same lesson could be taken home to each of us. Whenever we shirk our duty, we are striking against the men at the front the same as the fellow who lays down on his duties in the war plant. Let's not be too hard on the strikers until we are certain that we are likewise not striking against the men at the front.

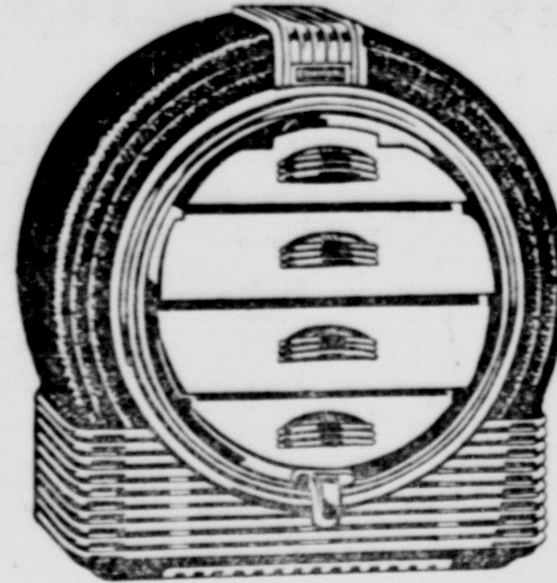

Enlistment of young women in the various branches of the armed services is lagging all over the nation. An appeal will be made to Washington to register all young women and then draft them the same as young men are being drafted into the armed services. There are many thousand young women in the various branches, but not enough to take over the services of the able bodied men whom the army and navy wish to release for active duties. It would be folly for a mere man to advise young women to enlist in some branch of the armed service, but it is evident that unless more of them volunteer Congress may be forced to do something about it.

The manner in which Governor Tom Dewey stresses the fact that he will not be available as Republican candidate for President in 1944 leads one to surmise that the farsighted Governor believes that no one can defeat the President for a fourth term; but that when 1948 rolls around the country will be ready for a change. Maybe he is right. The turmoil in Congress and the nation today is a mild breeze as compared to the cyclone which will rage after the war and we try to write and enforce the peace.

Vice President Wallace makes a bid to remain as running mate for the President in 1944. The Vice President has been making a lot of speeches, praising the administration, and stating that Roosevelt should be head of the peace conference following the war as well as President. Since Wallace was spanked by the President for his scrap with Jesse Jones, he has been acting like the good little boy and praising the President in his numerous speeches.

### VICTORY GARDENERS SET RECORD

Twenty million Victory Gardens—two million more than the goal set last spring—were grown this year. Claude R. Wickard, Secretary of Agriculture, said in a recent radio address. The Secretary said the Victory Gardens total four million acres and will produce eight million tons of food. In speaking of the goal of 22 million gardens for next year, Wickard said, "Last year at this time we were concerned over the possibility that we would not have enough garden seed and fertilizer for all who wanted to grow gardens—our best information is that we shall have an ample supply of both next year. We are expecting a better supply of garden tools and equipment for spraying and dusting. Victory Garden production should set another new record in 1944."

### FARM LABOR PLACEMENTS

Through the Government Farm Labor program 1,600,000 placements of workers were made on farms in the past four years. Among the workers placed were 700,000 local U. S. Crop Corps workers, comprising 250,000 men, 150,000 women, and 300,000 boys and girls. War Food Administration officials, in making this announcement, stressed the need for additional emergency volunteer workers in the next few months. Recruitment and placement of farm labor are handled by county agricultural extension agents in most areas. In others, the activity is carried on by the U. S. Employment Service.

### POINTS FOR HOME-CANNED FOODS

The point value of home-canned foods shall be the same as that of the corresponding commercial product, except that no home-canned food shall have a point value of more than eight points per quart or four points per pound. This was announced in a recent OPA amendment.

### SYNTHETIC TIRE PRICES

Maximum prices for synthetic rubber tires and tubes have been established by OPA. In the main, they are the same as ceiling prices

for corresponding tires and tubes made from natural rubber.

### MORE GOODS FOR CIVILIANS

Civilians will soon get more cooking utensils, lamps, lanterns, bed springs, innerspring mattresses, non-electric razors, razor blades, plated silverware, brushes, nails, tacks, boilers, radiators, furnaces, screen cloth, and other kitchen and household articles as a result of a recent WPB directive, which reserved a portion of the production of approximately 30 types of products for civilian use. The directive prohibits government agencies from buying goods set aside for civilians.

### CONSUMER COAL PILES SMALLER

The amount of coal held in storage by consumers diminished 312,000 tons during July, Harold L. Ickes, Solid Fuels Administrator, reported recently. "We have less coal in storage than we had a month ago," the Administrator said. "The limitations on production make it uncertain to what extent output can be increased. Consequently it would be wise to conserve coal by all possible means so that there will be enough of it to carry on all essential activities and to keep the public warm."

### ARMY REBUILDS SHOES

Approximately six and a half million pairs of army shoes will be rebuilt during the present fiscal year at plants under supervision of the Quartermaster Corps. Army Service Forces, in Buford, Ga., and Hannibal, Mo. The rebuilding operation in one year will save the government approximately seven million dollars, and will conserve nearly 20 million square feet of leather. Army shoes usually are resoled twice, then sent to Buford or Hannibal for rebuilding. The rebuilt shoes look and wear like the original article and usually are more comfortable because they have been broken in.

### DISCHARGED MEN RETURN UNIFORMS

Many honorably discharged enlisted men of the army are voluntarily returning their issued clothing to the army, thereby saving clothing stocks, according to the War Department. Former soldiers desiring to return their uniforms should address a package to the Commanding Officer of the army installation nearest their homes. The box should be marked "Attention: Quartermaster, Clothing and Equipment Classification Officer."

Those who do not desire to pay the cost of transportation may return the clothing by turning over any properly addressed package, not over 30 pounds, to the nearest Railway Express Agency office for collect shipment at government expense.

### DRUGGISTS CONTRIBUTE QUININE

With the compliments of the nation's druggists, more than 11 million five-grain doses of quinine are now on their way to join the war against malaria. Because seizure of the Netherlands East Indies cut off 90 per cent of the source of quinine supply, the army called upon the nation's druggists to make contributions. An appreciable quantity of the quinine donated was produced by Germany and Japan, and it now will assist in the war to defeat those nations.

### SEARCH FOR WAR MINERALS

The most extensive exploratory program ever undertaken in the United States and Alaska for war minerals has been launched by the Bureau of Mines. The bureau is sending its crews out in quest of nearly a score of materials needed to supply the armed forces, according to Harold L. Ickes, Secretary of the Interior. States in which exploration will be conducted are: Alabama, Arizona, Arkansas, California, Colorado, Connecticut, Georgia, Idaho, Maine, Massachusetts, Missouri, Montana, Nevada, New Hampshire, New Mexico, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, South Dakota, Tennessee, Utah, Vermont, Virginia, Washington, Wisconsin and Wyoming.

### GUN COVERS PROTECT BIBLES

Bibles which are placed on every life raft and life boat on army transport vessels are being protected from the effects of salt water by the same type of cover that protects pistols, rifles, and machine guns in landing operations. Curiously enough, the covers used for pistols are of exactly the right size for copies of the Bible, and have been adopted by the Chaplains Corps as a standard protective covering for them. The covers were developed by the Quartermaster Corps from a pliable, transparent, waterproof film known as vinyl. They are buoyant enough to float the Bibles if they are accidentally dropped overboard or washed out of the rafts in heavy seas.

### PUBLIC MAY GET COPPER WIRE

The public may purchase copper wire without restriction from retailers, electricians, radio repair men and others who sell it. Under a new War Production Board regulation any retailer or repair man may order up to \$100 worth of copper wire for delivery during any calendar quarter. Civilians must use this with care, WPB officials pointed out, as it will be needed to cover all essential repairs for general public use.

### RELATIVELY SPEAKING

"For heaven's sake," wrote Tommy to his wife, "don't send any more of those nagging letters while I'm at the front. I want to fight this war in peace."

## A Substitute for Hell

Somewhere in New Guinea these wounded soldiers await evacuation. Flat on their backs, in the steaming heat of the jungle, where mosquitoes plague the air and ants and mosquitoes torment weary bodies, they dream of home . . . of clean white sheets and the touch of cool, comforting hands. You can help provide modern hospitals and the medicines they need for their recuperation by putting every dollar you can into War Bonds during the Third War Loan.

## IF WE ONLY HAD SOME

If a man runs after money—he's money mad. If he keeps it—he's a capitalist. If he spends it—he's a playboy. If he doesn't get it—he lacks ambition. If he gets it without working—he's a parasite. If he gets it after a life of hard labor—he's a fool who got nothing from life.

## CAUGHT

An American newspaper correspondent in Japan wrote to a friend, "I don't know if this letter will ever arrive, because the Japanese censor may open it." A week later he received a note from the Japanese post office saying, "The statement in your letter is not correct. We do not open letters."

A woman preacher is like a dog walking on his hind legs. It is not done well; but you are surprised to find it done at all.—Dr. Johnson.

District and County Attorney's Association, recommends use of the "repetition of offense" and "habitual criminal" statutes, which have proved so effective that Gregg County's indictments have been reduced 65 per cent in the past few years because the word is out that "Gregg County is hot on ex-cons."

"Our country is threatened today by two enemies, one from without our borders, known as the Axis power, and the other from the criminal element within our borders; these two classes of criminals must be dealt with in somewhat the same manner," thinks County attorney W. K. McClain of Georgetown.

"Personally I believe that our system of automatic eligibility for paroles when one-third of the time has been served works to the disadvantage of society more often than it does to the advantage of society," comments District Attorney Tom L. Hartley of Edinburg.

District Attorney Marvin H. Brown, Jr., of Fort Worth states, "It is high time that petting and pampering these gangsters, thugs and law violators stop and the public should begin to go after them in a whole-hearted manner with a view of discouraging at least, if not stopping completely, their nefarious activities."

## EVERYBODY'S Got to Help!

## Prexy Hill Will Be on Newspaper Radio Program

A college president will play editor of the Plains country's newspapers next Sunday morning, September 10.

Dr. J. A. Hill, president of West Texas State College at Canyon, will be a guest on the Exchange Editor radio program over KGNC, Amarillo, at 8:30 o'clock Sunday morning.

This newspaper has been quoted many times on the program which is devoted to editorial comment, personal columns and news stories in this region. It is conducted by Lewis Nordyke.

Dr. Hill will talk informally on the newspapers and the college, which opens its fall semester September 21.

During the school year Dr. Hill plans to visit every newspaper editor in the Plains country and discuss with them some proposed post-war plans for the region and its educational facilities. "I want to talk with all the newspaper editors," he said. "They are close to the people; they know the needs of their communities. It is impossible to evaluate the worth of the smaller town newspapers. They are the mainstays in any community."

## Amarillo Center of W. T. Enrolls Many Citizens

Allen Early, one of the first wheat elevator operators in the Texas Panhandle, built a home in Amarillo. It cost more than \$100,000. Last year Mr. and Mrs. Early donated the big house to West Texas State College for an Amarillo Center for adult education.

Mr. Early was one of the first students to register. He had never attended college. He is returning daily to his former home to school. He plans to win his college degree.

More than 500 persons attended the Center the first year. Housewives, clerks, editors, ministers, teachers, railroad men, government employees, men in the service and scores of others attended. Many of the adults had never before gone to any college.

One man figured out his courses. He backed off and said, "I won't start it. I'd be 40 years old by the time I finished." Next day he returned and said, "I've decided to take the courses. Just realized I'd be 40 years old anyhow."

The Center is the only school in the state in which the students work out the schedule of courses and select the teachers. It is a part of West Texas State, and members of the faculty at Canyon conduct the classes. The Center is part of the college's plan to give full educational facility to the Panhandle.

## Palo Duro News

Sunday dinner guests in the home of Mr. and Mrs. Leonard Boehning were Pvt. Leroy Boehning, honor guest; Mr. and Mrs. Walter Boehning and Lawrence, and Mr. and Mrs. Alvin Boehning and children of Amarillo.

Mr. and Mrs. Raymond Tuck and sons and Mr. and Mrs. G. H. Lesberg and daughter spent Sunday in the C. W. Bauer home.

Alan, Marvin and Bruce Albers called Sunday evening in the Walter Boehning home.

Quite a number of people from this community attended the special mission services Sunday at Trinity Lutheran Church in Amarillo where the Rev. Carl Keller of Clovis was guest speaker. A girl quartette from the community, Clara and Betty Miller, Wilma Schuetz and Phyllis Albers presented special vocal music for both services.

## Red Cross Needs Workers at Its New Location

Headquarters of the Randall County Red Cross has been moved from the west side of the square to the building immediately west of the post office, and the building is now open for the use of those who wish to work on Red Cross projects.

T. V. Reeves, Randall County chairman, states that after reviewing the possibilities, the board of directors, which is composed of W. C. Black, W. J. Wooten, A. K. Knott, Lonnie Byars, and W. T. Oliver, decided that the location chosen was most advantageous.

The building offers the best protection for the stocks of material which have to be kept on hand, and is convenient to people living in town and in the country. It was pointed out that there is only one step to be gone up in getting into the new room.

The Randall County Chapter needs a large number of workers. Women and girls who are experienced knitters or can sew, can give valuable service to the men overseas by working in the Red Cross. It is hoped that with the opening of fall activities, the number of workers will greatly increase.

Mrs. George Melton has visited a number of Red Cross workrooms, and has found them busy places turning out a large amount of finished material for the convenience and comfort of the men in the services.

Donald Gordon McAtee, M. M. 1 C, and wife from Camp Perry, Williamsburg, Va., are here on leave in the home of Mr. and Mrs. W. J. McAtee.

Clarence Eugene Thompson S2/C has been transferred from California to the Naval Armory at Michigan City, Ind.

Mr. and Mrs. J. E. Warwick of Hereford visited Mr. and Mrs. Carl Ellison and Mrs. C. L. Drummond Sunday.

Mrs. Lesley Key and daughter, Sylvia, returned home from Oklahoma City last week.

## W. T. OPENS

(Continued from page one)

The 1943-44 session of the college will get underway next Monday morning when all members of the faculty will meet at Cousins Hall at 8 o'clock for their annual opening day breakfast.

The first faculty meeting will be held immediately following the breakfast.

On Tuesday, all freshmen will take psychological and English placement tests, and sophomores, juniors, seniors and graduate students will register. Freshmen will register on Wednesday, but none will be allowed to register without first taking the tests. So, according to Dean A. Kirk Knott, it is essential that every freshman report Tuesday.

The classes will meet for the first time on Thursday, and the first assembly will be held on Thursday.

The annual faculty reception to students will be held Saturday evening at Cousins Hall, and following it there will be a dance for students and members of the Army Air Corps Detachment.

## United Drive Will Be Made on Various Relief War Funds

Milton Morris has been appointed county chairman for the United War Relief Drive which starts in a few weeks.

All of the agencies have been joined for one drive. During the first year of the drive several calls were made including UCO, China Relief, Russian Relief, Greek Relief and others. All of these will be combined for one drive this time.

Mr. Morris is organizing the county to put on an effective drive.

Mr. and Mrs. Herbert Gerdson of Happy were visitors in Canyon Monday. Mrs. Gerdson will be remembered as Miss Alice Kuehn.

Miss Shirley Harrell left Monday for Gulf Port, Miss., where she will attend college this year.

Dr. Lee Johnson is on a business trip to Terry county.

## Bill Cole Serving In California Camp

Bill Cole, son of Mr. and Mrs. G. C. Cole, is now in Camp Callan, Calif. He received his B. A. degree from West Texas State in 1933.

He went from here to Sweetwater where he was employed in the insurance business before going into the armed services.

He was inducted into the army on July 7, 1942, seven months to a day after Pearl Harbor.

He arrived at Camp Callan, Calif.,

on July 14, and trained for seven months before receiving his first stripe on May 8. On August 17 he received the rating of Technician Fifth grade.

Mrs. Chas. Donnell spent the week end at the home of her sister, Mrs. Wayne McCormick, in Mineral Wells.

Mr. and Mrs. Bennie Hays and Mr. and Mrs. Larry Holman are here from California to visit at the home of their mother, Mrs. E. V. Holman and other relatives.

## In Appreciation

With this issue of Prop Dust, we must bid Canyon farewell. It has been a wonderful transition for most of us to be transplanted from the dusty and hot drill fields to the peaceful campus atmosphere of Canyon. We would indeed be ungrateful if we did not express our sincere thanks to the officers—more bars and stars to them—to the instructors, college and military personnel, and to the city of Canyon, for their magnificent performance in seeing a job well done. All of you will stand out paramount in our memories of two pleasant months spent here.

## My Misery

(or leaving Canyon)

I just phoned the most wonderful person in the world—MY MOM! It seems strange that the sound of her voice anxiously inquiring about my welfare can cheer me up so. Talking to her has put me in a reminiscing mood.

Reminiscent 1. The "Mother of the Detachment." Do you fellows remember that grand lady who takes care of us at night at the hospital. The lady who makes our long dull evenings pleasant. The lady who has a pleasant smile and words of good wishes to all. The woman who we claim is the typical "War Mother of Canyon," her son and two sons-in-law are in the Army and her daughters ding their share on the home front. Gentlemen, "Hats Off" to Mrs. Keenan.

Reminiscent 2. The two grand guys who work in the tactical office.

Cpl. Anton and Pvt. Gardner. It's a long war and they are sweating it out.

Reminiscent 3. We have met many a fellow here who stands out above the crowd. But paramount of all is a certain Pvt. DiMalo. He is the permanent party medic stationed here. Perhaps the most apt description of him could be that he be nominated "Chaplain of the CTD."

Reminiscent 4. Is a deep regret that I never did get to meet a certain Buck and Al.

Reminiscent 5. Those "little gentlemen" who deliver our cokes at night are the cutest, ornriest, little devils alive. Thanks, Kids.

Reminiscent 6. Of that grand house mother at Randall Hall who entertained the escorts while waiting for their dates.

Reminiscent 7. Of a certain gal called "Slug" who has helped many an O. D. pass his time away quickly. We have never seen her, but from what we know, who suggest the following description: "Unpredictable."

Reminiscent 8. Of Supply Sgt. Sammons, a guy who we think "can do no wrong." If there was such a thing as an 8-day week, he would be there on every one of them.

Reminiscent 9. To Pfc. Glass, the man who really puts the paper together. More stripes to him; and may they come soon. And to that gentleman of a 1st Sgt. (who has protected my honor) a little diamond in the middle of those stripes.

Reminiscent 10. To the bus company, may their baggage compartments always be just as comfortable as they are now. Right, Sis and Mag?

I've said "Au Revoir" to all my friends; and now would like to say, "I'll be back someday, somehow." 'Til Victory (and hustle up, Bub) Stanley S. Appel.

## Letter Home

Dear Mom:

I will try to come down out of the sky long enough to drop you a few lines today. I wrote you before that I am now learning to fly, so when I say I'm up in the air, I mean it both literally and otherwise.

For some reason I make more mistakes in ten minutes than all the rest of the students do in one day. I asked the instructor the other day what was wrong with me, and this is the reply I received:

"Dusty, as a pilot you would make a good cowboy. Instead of doing things right you do them just the opposite and get worse each day. When you are flying a plane it wobbles over the sky like a piece of paper blowing in the breeze. You sit back in your seat enjoying yourself, and let the plane go where it will. You never remember directions either. Why, the other day when I told you to take the ship back to the field you started for some farmer's barn. And your landings! You come down as graceful as an elephant. Remember that your wheels and tail skid should strike the ground together. Not your tail skid first while your wheels are still about five feet up in the air."

"And another thing, when you make a forced landing always pick out a nice level field in which to land. Don't ever attempt to land again on a busy highway. I know it is smooth, but after all, there are cars traveling on the road also."

"You can make a pilot, Dusty, if

you'll try and remember, always think before trying."

My time is growing short here at the college, Mom, and gosh, how I hate to leave. This is one town that seems to grow on a person. The longer I stay the better I like it. And the town isn't the only reason I hate to leave.

I have met some mighty nice folks here. In fact, every person that I have met has treated me wonderfully. There is one person in fact, who stands out in my mind more than the rest. That gentleman is Dr. Gilmore, the Physics teacher. There is one grand fellow, His kindness, cheerfulness and untiring aid has endeared him to the hearts of every Aviation Student that has come in contact with him.

While visiting in Amarillo the past week-end, I surely enjoyed myself; especially on the way home. One of my buddies climbed into the baggage compartment to sit when he discovered that all the seats were taken. On the way back to Canyon, he fell asleep and when he awoke, he thought that he was behind bars. It was a scream listening to him proclaiming he was framed and innocent of the crime. I never did find out what he thought he had done, and now I can't get him to open his mouth now. Poor Appel!

Sunday, I was invited for dinner, and I mean a dinner. I ate until I was in misery. It reminded me of the meals you used to cook, Student Lt. Appel, who was with me, shares my sentiments when I say "Thanks a million" Mrs. Keenan.

For the last time from Canyon, I'll be saying—  
Goodbye and God bless you,  
Dusty.

## Flights 9 and 10

"Miami was never like this!" How true this statement is! The new class of "Gadgets" have really taken a liking to the 350th CTD and the people of Canyon.

This is my first article for this paper, and I shall try to represent the new aviation students from Miami Beach, Fla.

I should like to introduce a few of the members of our "Eager Beaver" Squadron. Student Capt. Chambers, an Oklahoman, was in Personnel Headquarters in the Panama Canal Zone, previous to becoming an aviation student.

Flight Lt. Stackwicz, was an instructor at an Officer's Candidate School and has six years to his credit as an outstanding soldier.

First Sergeant Calaman, was a survey engineer in New York state before entering the service.

Our active service man is Flight Sergeant Petso, who fought the

Sons of the Rising Sun at Pearl Harbor, on December the seventh, nineteen forty-one.

The new students are eager to start on their academic courses, but the biggest puzzle is when do they find time to study? However, many of the misters should have very little trouble in adjusting themselves, since most of them are former college men and feel quite at home on the campus. Here is a list of them and their Alma Maters.

A-S Katz, New York University.  
A-S Robertson, Jr., Mass. State.  
A-S Armstrong, Middle Ga. Col.  
A-S Cocoros, Johns Hopkins.  
A-S Spangler, Mrs. Hill Jr. Col.  
A-S Christenson, U. of Min.  
A-S Mosher, Amherst.  
A-S Torogian, U. of Illinois.  
A-S Morris, U. of Michigan.  
A-S Moffett, U. of Oklahoma.  
A-S Nesbitt, Boston University.  
A-S Canigan, Geo. Washington U.  
A-S Fuller, U. of Arkansas.  
A-S Chasen, St. John's Univ.  
A-S Johnston, U. of California.  
A-S McNaughten, U. of Calif.  
A-S Booth, Kansas University.  
A-S Smith, Brooklyn College.  
A-S Hunzeker, U. of Nebraska.  
A-S Simmons, Texas School of Technology.

Many of the other misters have held responsible positions in the army before becoming Aviation Students. Most interesting of these are John Kady and Hoot Gibson, who were tower operators at Pueblo, Colorado, Ellington Field, St. Joseph, Missouri, and Alliance, Nebraska, respectively.

Other outstanding men are Robert Hapf, who was waist gunner and Aerial Engineer on a B24 at Pueblo, Colorado (incidentally, Mr. Hapf has 200 hours in the air), and Mister Jack Stickel, who was a radio-gunner on a B24 and a B17.

The remaining Aviation Students of this Squadron have graduated from either Mechanical, Armament, Gunnery, or Radio schools.

The Flights are eager to make a good impression on their officers, upperclassmen and citizens of Canyon.

If anyone happened to see the Squadron as it got off the train last Friday morning, their impression must have been very bad. However, after spending three days on a train with the windows open and with no access to our toilet articles or clean clothes, it is easily understood why we presented such a bedraggled appearance.

But our eager beaver instinct will easily erase your first impression and before we leave, we intend to prove just how good we really are. Until next week, I leave you with a resounding cheer—Hubba!

Yer Strooly,  
"Chris."

## This Is To Speed Up His Return Home!

My bones just ache to get out there and take a crack at the Axis, but that is exactly why I can't do it—my bones ache too much. It's those youngsters with plenty of pep and zip in them who are going to show the Japs and Germans what they're up against. And they can do it, too! But we old timers can do something. Buy War Bonds and Stamps to keep our boys properly equipped and buy as many as we can. I'm not just talking to have something to say. It is our duty to give at least 10 per cent of our wages to buy war stamps. We can do that easily compared to the sacrifice all those boys are making. We can't let them down. They're counting on us all. DON'T LET THEIR SACRIFICE BE IN VAIN!

Through these hectic days and busy nights, troop trains, regular trains with troop cars, and freights loaded with war materials keep rolling along the Santa Fe.

Watch a section hand grab his pick a little tighter after a trainload of American fighting boys has rolled past. "We'll-get-'em-through" is his attitude these days.

Yet—he is only one of more than 60,000 employees on the Santa Fe who are doing their bit to "keep 'em rolling" all along the line . . .

moving millions of troops and millions of tons of materials needed for Victory, where and when they are needed.

They know that if you stop the wheels that move them, you stop everything that floats and flies as well!

And they never forget that thousands of boys in our armed forces came from Santa Fe ranks and from the families of Santa Fe employees, and these boys who are fighting for all of us have the toughest job of all!

You bet, we're backing them up in the best way we know—and that's by buying War Bonds, and seeing to it that movements essential to Victory come first on the Santa Fe!

## IGIVE YOU TEXAS by BOYCE HOUSE

John Randolph of Roanoke (Virginia, of course) was the master of biting wit. A constituent, who was quite a bore, said, "I passed your house the other day." Randolph replied, "I hope you always will."

However, Randolph lost one bout. In his day, Washington was unpaved and, in crossing a muddy street on a plank, he found himself face to face with his enemy, Henry Clay. Randolph, a little man, drew himself to his full height and said, "Sir, I never give the way to a scoundrel." The tall and stately Clay stepped into the mud, bowed low and said, "Sir, I always do."

Texas public schools are facing a shortage of teachers. Some of the little rural schools may not be able to open. While Texas soldiers and sailors are shedding their blood and giving their lives to preserve freedom, what are the statesmen at Austin doing to meet this crisis on the State's own front—a situation that threatens the opportunity in life for thousands of future citizens. Our proud State should give its own boys and girls an equal chance with those of the "politically potent East"—(I've heard those words somewhere before). I submit that this is even more important than whether an "A" coupon is worth four gallons or only three gallons of gasoline!

Nomination for the world's worst joke:

Merchant: What are you scratching your head for, Rastus?

Darkey: I's got 'rithmetic bugs in mah haid, sas.

What are arithmetic bugs?

Dey's cooties an' I calls dem dat 'cause dey add to mah misery, subtract from mah pleasure, divide mah attention an' dey multiplies like de dickens.

One of the most interesting men I ever met had been a Confederate soldier who refused to take the oath of allegiance after Appomattox but fled to Mexico, where he joined Maximilian's army. With the fall of Maximilian, the veteran sailed for Europe, fought in a Balkan war, the Franco-Prussian war and the Spanish-American war. After all these adventures, he took a job as a printer with the Baird Star. A bachelor, the hero of many wars was a favorite with little children for he regaled them with candy and stories of battles—a serene old age after a life filled with action.

## THE 3<sup>RD</sup> WAR LOAN DRIVE IS ON!

Today...YOUR COUNTRY looks to YOU to back the INVASION

## 3<sup>RD</sup> WAR LOAN

★  
15 BILLION DOLLARS  
(NON-BANKING QUOTA)

• The big drive is on! Not only on every battlefield—but on the home front, too. As the tempo of the war increases . . . as our fighting forces go all-out for INVASION, we folks back home must mobilize in their support.

We must back the attack with our dollars.

And that's what the 3rd War Loan Drive is for!

Today marks the opening of this vital drive, probably the most important appeal your government has ever made to you. Open your heart . . . and do your full part.

To reach our national quota everyone who possibly can must invest in at least one EXTRA \$100 War Bond during the drive, at LEAST \$100. More if you can. That's in addition to your regular War Bond subscription. Invest out of your income . . . invest out of accumulated funds. Invest every dollar you can. For, one thing is certain—this is total war and everyone must do his full share. And that means you!

You know all about War Bonds. You know that every penny comes back to you with generous interest. That War Bonds are the safest investment in the world. That they help secure your future . . . hasten Victory. So now—today—let's all do our share. Back the invasion now—buy at least one extra \$100 War Bond in September.

### Safest Investments in the World

## "20 Fighting Men" Shows Need More "Food for Victory"

Farmers and food producers will find much "food for thought" in the wartime Food Production Movie—"Twenty Fighting Men"—to be shown at the Olympic Theatre, Saturday only in connection with the regular show.

Produced in the interest of more "Food for Victory" by Purina Mills, St. Louis, Mo. and brought to our local theater by the Farmers Elevator Company, Purina dealer. "Twenty Fighting Men" is a graphic presentation of the vital need of additional food production for our armed forces and allies.

## Boy Scout Work Discussed Tuesday Rotary-Lions Lunch

The second joint meeting of the Rotary and Lions clubs was held Tuesday for the purpose of further discussing the Boy Scout program.

Rev. Sam A. Thomas of Dalhart, former pastor of the local Methodist Church, talked on the Scout program. He was introduced by Harris M. Cook.

The speaker praised the work of Scouts during the war and the help that they had given in the various war drives. He urged that the people of this community provide a good meeting place for the Scouts. The boys want to be self-sustaining through the payment of their fees. Scouting is not a charitable institution, but is a character building movement.

Canyon has a most ideal location for effective Scout work. There are so many fine camping places that it gives the boys the opportunity to put their teaching into practice. Scouting has a great program—one that makes good citizens of the local community, of this nation, and leads to world citizenship. Unless world citizenship is developed among the boys of today we may expect another world war in the future.

Visitors were: R. E. Wertz, W. W. Rusk, Dr. J. Francis Brown, all of Amarillo; W. M. Teague and Gene Lowman of Dalhart.

Miss Billie Bee Flesher, who is in the business office of the Artesia, N. M. school, spent the week end in the home of her parents, Mr. and Mrs. C. R. Flesher.

Kenneth C. Parmelee, A/M 2/C and Mrs. Parmelee and son of New York City, are visiting in the home of their parents, Mr. and Mrs. W. B. Miller.

## SAW GENERAL COUSINS

While visiting his father in California, J. W. Kleinschmidt visited with General Ralph Cousins, former citizen of Canyon, who is in command of the western area of the Army Air Corps. The training detachment at West Texas State is under his command.

Mrs. Kleinschmidt and daughter, Jean Marie, stayed in California until last week.

## CAPT. AL BAGGETT HERE

Capt. Al Baggett was here yesterday for a few hours. He has just completed a month's work at an eastern college from which men are usually sent to overseas posts.

Mrs. Baggett has resigned as librarian of the Amarillo College and will accompany Capt. Baggett in his work.

Rev. and Mrs. J. H. Wright, Jr., of Holiday visited in the home of Rev. Wright's parents, Mr. and Mrs. J. H. Wright, Sr., over the week end. Frank Wright returned home with them.

Miss Jean Smith is visiting in Portales, N. M., in the home of Mary Hunt, a niece of Judge A. H. Hunt.

Mrs. Grace Smith of Amarillo spent Sunday in the home of Mr. and Mrs. G. G. Foster.

## Bowen Cox Is Promoted to Corporal In England

Bowen Cox is in the Air Force in England, and word has just been received by the War Department of his promotion to Corporal. He is the son of Mr. and Mrs. George R. Cox of Canyon. Prior to his enlistment he was teacher of commercial subjects in the Sweetwater high school.

Cpl Cox is in the Unit Personnel Section at a bomber station.

## Red Cross Sewing Room Is Moved to Campbell Building

The Red Cross Sewing Room was moved Monday from the building on the west side of the square to the Campbell building west of the postoffice.

T. E. Allen will move the Western Auto Store to the west side next week, and the King Cafe will open on the north side in the building vacated by Mr. Allen.

Mrs. Mary Sligar returned from Colorado last week.
